

WHITE WINES

Thanks to their vinification process and stainless steel aging, the **Marco Felluga** single-grape wines have a unique body, balance, elegance, and fruit. The black label, reserved to Collio Bianco **Molamatta** – a blend of Pinot Bianco, Ribolla Gialla, and Friulano – and Collio Pinot Grigio **Mongris Riserva**, identifies the different type of aging that characterizes these wines, which are refined in barrique.

RED WINES

The red single-grape wines – Collio Merlot **Varneri**, Collio Cabernet Sauvignon **Marnasco**, and Refosco dal Peduncolo Rosso **Ronco dei Moreri** – age in oak barrels for at least 12-18 months, depending on the characteristics of the vintage, and they refine in the bottle. Our Collio Rosso **Carantan** – a blend of Cabernet Sauvignon, Cabernet Franc, and Merlot – ages in small oak barrels for more than two years and refines in the bottle.

MOSCATO
ROSA

SWEET WINES

Moscato Rosa:
An aromatic grape characterized by a ruby red color and a bouquet with intense notes of rose. The grapes, which are withered on the plant, give the wine body and a great balance between acidity, fruit, and sweetness.

WHITE WINES

15% of the must of the Russiz Superiore single grape white wines ferments in oak barrels, while the remaining 85% ferments in stainless steel vats. The Crus Collio **Pinot Bianco Riserva** and **Collio Sauvignon Riserva** are partially aged in barrique. The Cru Collio Bianco **Col Disòre** – a blend of Pinot Bianco, Ribolla Gialla, Friulano, and Sauvignon – is entirely refined in 15-30hl barrels.

RUSSIZ SUPERIORE®

SWEET WINES

Horus: is named after the Egyptian sun god. Structured and mouth filling, Horus is characterized by fragrant aromas of candied fruit and dried apricot. It features a vivid yellow color with golden nuances and is made from overripe Picolit grapes, which are withered on the plant. The Picolit wine variety was cultivated in Friuli since the XVII century.
Verduzzo: is a native vine, which is part of the Friulan viticultural heritage. Our Verduzzo is obtained from late harvest and expresses elegant notes of honey and ripe fruit.

HORUS

VERDUZZO

RED WINES

The grapes used for the production of Collio **Merlot** and Collio **Cabernet Franc** are the result of a massal selection of a 50-year-old vineyard. These wines are refined in barrique for 18-24 months and they age in the bottle. Collio Rosso **Riserva degli Orzoni** – a blend of Merlot, Cabernet Franc, and Cabernet Sauvignon – is a full-bodied wine with a remarkable complexity. It refines for more than 2 years in oak barriques and then it ages in the bottle.
